

# ARE YOU A NEW HRW CLASS OPERATOR?

## BEFORE STARTING:

- Safety starts with **YOU**
- Experience and skills are gained by doing tasks, not by passing a licence test
- This licence is new – the work you will be doing is **HIGH RISK**
- Work within your capabilities, don't say you can if you can't
- Remember – you are no longer operating in a supervised training environment.

## READY TO WORK LIVE?

- Talk to your supervisor about opportunities to practice what you have learned and develop your skills
- Make sure you are familiar with the plant and equipment at the workplace
- **YOU** are accountable for your decisions and actions when operating under the class of HRW, your choices can impact others
- If you are not sure check in with your supervisor to talk about your progress or speak to your employer
- With support from an employer you will gain experience over time.

**#SAFETYSTARTSWITHYOU**
