

ARE YOU USING PERSONAL PROTECTIVE EQUIPMENT (PPE) FOR HANDLING GLASS?

EYE PROTECTION

GAUNTLET/FOREARM PROTECTION

LONG SLEEVES

CUT/SLIP RESISTANT GLOVES

APRON/TORSO PROTECTION

LONG PANTS

SAFETY BOOTS

EN388
Higher number offers better protection

Abrasion	5
Cut	4
Tear	3
Puncture	2

XXXX

Which level do I choose?

5	Extreme cut hazards: heavy metal stamping, plate glass handling, meat and poultry, some pulp and paper applications
4	High cut hazards: metal stamping, sheet metal handling, glass handling food services
3	Moderate cut hazards: light metal stamping, light-duty glass handling applications
2	Low cut hazards: construction, automotive assembly, packaging, some masonry applications
1	Nuisance cut: paper cuts, automotive maintenance, parts assembly, material handling

*These recommendations are of general nature and are not specific to everyone's needs. Always ensure your selected glove complies with the mandated safety standard recommended for your application.

Other PPE may be required specific to the workplace and hazards
