

CONSULTATION@WORK STRATEGY

OUR VISION: NSW workplaces manage health & safety successfully through effective communication and consultation.

OUR OBJECTIVES

NOV
2016

BUILD Capabilities

Support NSW workplaces to build their capability to consult.

We will consult broadly about the strategy.

MAKING IT HAPPEN

Improve our capability to support business and ensure compliance.

Review and improve HSR training courses.

Build awareness and capability for NSW businesses.

Build HSR capability by developing best practice consultation information.

OCT
2018

CONSULTATION MATTERS

Consultation and communication hold all elements of the Safety Landscape together.

Consultation ensures that workers make a contribution to health and safety decisions. By consulting and communicating with the worker who knows the job, better safety outcomes can be achieved.

BUILD Resources

Develop resources for NSW businesses and workers to improve Consultation@Work.

Produce plain English resources for NSW businesses, HSRs and workers (including contractors and labour hire workers).

Produce best practice consultation case studies/videos, showcasing what good consultation looks and feels like.

Develop handouts and templates for running effective consultation.

Run a targeted campaign to promote best practice consultation.

BUILD Connections

Improve engagement opportunities with major stakeholders, industry networks, HSRs and others involved in consultation.

Share information with other regulators intrastate and nationally.

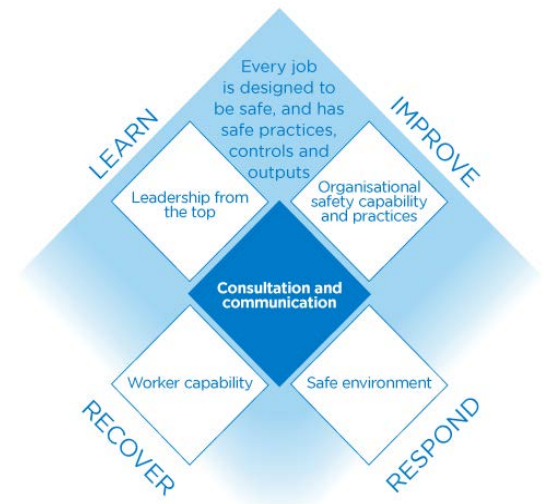

Improve our social media presence to be more proactive and interactive.

Improve communications and engagement with HSRs.

Create a SafeWork NSW video to include in HSR training course and other mediums.

Develop feedback mechanisms to enable better communication between SafeWork and NSW businesses, HSRs and workers.

Engage with industry stakeholders.
