INTRODUCTION

The NSW Explosives Regulation provides for the licensing of corporations or individuals who wish to import explosives and/or security sensitive dangerous substances (SSDS). This guide provides applicants with information to complete the *Licence to import explosives and/or security sensitive dangerous substances – application* (catalogue no. SW08142).

Under the *NSW Explosives Act*, if the regulations require a licensed person to handle explosives and explosives precursors, it is an offence for an unlicensed person to handle such material.

RELEVANT LEGISLATION, STANDARDS AND CODE OF PRACTICE

- NSW Explosives Act
- NSW Explosives Regulation
- Australian Explosives Code
- Australian Standard AS 2187
- Australian Standard AS 4326 Australian Dangerous Goods Code.

LICENCE CONDITIONS

The NSW Explosives Act provides that the licence holder cannot contravene any conditions to which the licence is subject. The SafeWork NSW publication General explosive licence and security clearance conditions under the NSW Explosives Act and Regulation outlines the conditions to which an import licence holder is subject.

IMPORT LICENCE AUTHORISATIONS

A licence to import authorises the licence holder to carry out the following activities:

- Importing the explosives or explosive precursors specified in the licence into the state from another country.
- Supplying (including exporting), at the premises (if any) specified in the licence, the explosives or explosive precursors specified in the licence.
- Purchasing or possessing the explosives or explosive precursors for the purpose of bringing them into the state from another country.
- If premises are specified in the licence, storing the explosives or explosive precursors at the premises.

EXPLOSIVE PRECURSORS

Currently only Security Sensitive Ammonium Nitrate (SSAN) is prescribed as SSDS. SSAN is any of the following:

- Ammonium nitrate that is not a dangerous good of class 1 (that is an explosive).
- Ammonium nitrate emulsions, suspensions or gels containing greater than 45 per cent ammonium nitrate.
- Ammonium nitrate mixtures containing greater than 45 per cent ammonium nitrate.

WHO MAY APPLY FOR AN IMPORT LICENCE

Corporations or individuals may apply for a licence to import explosives and/or SSDS.

AGE RESTRICTIONS

The individual applicant or the responsible person must be 18 years of age or over to apply for a licence to import explosives and/or SSDS.

A 'responsible person' is the individual nominated by a corporation applicant who is involved in the management of that corporation and who will be responsible for the safety and security of the explosives and/or SSDS stored at the site, and who will ensure compliance with any conditions of the licence and explosives legislation.

CORPORATION APPLICANTS

A corporation must nominate at least one natural person, who is responsible for the activities to be authorised by the licence.

SECURITY CLEARANCE

The individual applicant or the responsible person for corporation applicants must have a current security clearance (SC) (previously called Unsupervised Handling Licence (UHL)) or apply for an SC at the same time as the import licence. However, the import licence will not be processed until the SC has been approved. For more information on an SC, refer to the SafeWork NSW publication *Guide for applying for a security clearance* (catalogue no. SW08133) available on the SafeWork NSW website.

EXPERIENCE AND KNOWLEDGE

The applicant or the responsible person for the corporation must have experience and knowledge that is demonstrated by the submission of a Statement of Experience and Knowledge.

For the responsible person, the submission is made by the corporation applicant.

For an individual applicant, the submission is made by the individual applicant.

The Statement of Experience and Knowledge must cover:

- experience in the safe handling and storage of explosives and/or SSDS for which authorisation on the licence is sought
- knowledge of the Australian Explosives Code (for explosives), Australian Dangerous Goods Code (for SSDS) and AS 2187 (explosives) and/or AS 4326 (SSDS)
- training or qualifications if applicable.

REASON FOR REQUESTING LICENCE

It is a requirement for any licence relating to the handling of SSDS, that the applicant must have a legitimate reason for obtaining the licence. The applicant must select the relevant reason(s) on the application form. If the reason 'other' is selected, the application must provide details.

REQUIREMENT FOR EMERGENCY PLAN

It is a requirement for any licence which includes storage of explosives and/or SSDS above certain amounts (more than 50 kg NEQ of explosives, and/or more than 50 tonnes of SSDS), that adequate arrangements are in place for dealing with an emergency. This includes providing a copy of the emergency plan, and any changes to the plan, to the Commissioner of Fire and Rescue NSW and/or the NSW Rural Fire Service (as appropriate).

AUTHORISATION TO EXPORT EXPLOSIVES

If the applicant requires authorisation on the licence to export explosives, section 11 of the application form must be completed.

DURATION OF AN IMPORT LICENCE

The licence will last for five years unless cancelled earlier, or otherwise stated.

HOW TO APPLY FOR AN IMPORT LICENCE

Complete the application form available on the SafeWork NSW website and lodge it online.

FEE

For the fee for an import licence refer to the <u>SafeWork</u> <u>NSW fees schedule</u> available at

<u>www.safework.nsw.gov.au</u>. If you are also applying for an SC, an additional fee is required to be paid at the time of lodging the applications.

APPLYING FOR STORAGE AUTHORISATION

If the storage site is on a coal or mining workplace, the assessment for storage authorisation is performed by NSW Department of Industry.

SITE STORAGE FACILITY

A site storage facility is any area, building, room or container where explosives are stored or handled. The application form requires the storage facility identifier, type, the maximum storage capacity and the class/division of the largest quantity of explosives or SSDS to be stored within it.

SITE STORAGE FACILITY IDENTIFIERS

Storage facilities must be given individual names or numbers, called the storage facility identifier, that are up to four letters or numbers in length (for example DEP1). The storage facility identifier is to be used on the A4 size site sketch (see the SafeWork NSW publication Security plan for the storage and handling of explosives and security sensitive dangerous substances guide (catalogue no. SW08292) available on the SafeWork NSW website, for more information about the site sketch).

TYPE OF STORAGE FACILITY

In the application form, the type of storage facility that will store explosives must be nominated: • Internal magazine

- External magazine
- Fenced compound
- Room inside a building
- · Underground magazine
- Warehouse
- Magazine
- Enclosed roof store Roofless package store
- Roofed store.

NATURE OF THE SITE

The application form requires a description of the nature of site (ANZSIC code and description). This is based on the Australia and New Zealand

Standard Industrial Classification System (ANZSIC). For more information about ANZSIC, visit the Australian Bureau of Statistics website at www.abs.gov.au.

See Appendix 1 for a list of ANZSIC codes and associations descriptors from which to choose.

EXPLOSIVES AND/OR EXPLOSIVE PRECURSORS TO BE STORED

The application form requires that, for all explosives and/or explosive precursors to be stored within each magazine, the following is provided: UN number, Class or division, Typical quantity to be stored and units (L or kg/NEQ (Net Explosive Quantity) or number), the Proper shipping name and the Product or common name.

MAP

A photocopy from a local street directory or other map showing the locality of the storage site is required to be submitted with the application form. Please mark the location of the site on the map with an X.

SECURITY PLAN

Authorisation for storage requires the submission, with the application form, of a security plan. Information on how to complete a security plan is provided in the SafeWork NSW publication Security plan for the storage and handling of explosives and security sensitive dangerous substances (catalogue no. SW08292) available on the SafeWork NSW website.

SAFETY

For the safe handling of explosives, refer to the SafeWork NSW publication *Secure and safe handling of explosives and security sensitive dangerous substances guide* (catalogue no. SW08441).

OBLIGATIONS OF LICENCE HOLDERS

CHANGE OF DETAILS

It is a condition of an import licence that the licence holder must notify SafeWork NSW within 14 days of any change in address or other details provided in their application. For change of name or address or contact details use the *Change of details application* (catalogue no. SW08163). For changes to authorisations on a licence (changes to storage or to add another responsible person), use the *Amendment to an explosive licence – application* (catalogue no. SW08135) Both are located on the SafeWork NSW website.

NOTIFICATION OF IMPORT/EXPORT

Notification to SafeWork NSW is required no later than five business days before explosives and/or SSDS are imported or exported into NSW. A notification is made by completing the *Notification of import/export of explosives by vessel or aircraft* form (catalogue no. SW08138) located on the SafeWork NSW website.

Only authorised explosives will be permitted into the state. Refer to the *List of authorised explosives and categories of prohibited explosives in NSW* (catalogue no. SW08463) located on the SafeWork NSW website.

ADDITIONAL INFORMATION

For additional information about applying for an import explosives and/or SSDS licence, contact SafeWork NSW on 13 10 50 or visit the website at www.safework.nsw.gov.au.
