Safety information

Businesses are reminded of their duty to identify hazards and manage risks to health and safety in accordance with the provisions of the <u>Work Health and Safety Act 2011</u> and <u>Work Health and Safety Regulation 2017</u>.

Consider 'reasonably practicable' control measures to manage the risks associated with working on tractors. Make sure:

- the tractor is routinely inspected and maintained according to the manufacturer's recommendations or, if none, the recommendations of a competent person
- all work on the tractor is done by trained and suitably experienced workers, according to the manufacturer's recommendations
- interlocking devices that prohibit jump-starting are in proper working condition, and not bypassed or removed
- you don't jump-start the tractor unless the manufacturer has given you specific procedures.

Further information

- Code of practice for safe design and operation of tractors
- Code of practice for managing the risks of plant in the workplace
- Agriculture work health and safety sector plan
- Tractor safety precautions
- Small business rebate
