

Variation to an Enforceable Undertaking between the regulator and Borg Manufacturing Pty Ltd accepted on 7 July 2017.

The following variation to the Enforceable Undertaking between the regulator and Borg Manufacturing Pty Ltd has been proposed as follows:

2d.1 'Machine Safety Program'

Stage 1:

- Plant and equipment is guarded in line with manufacturer recommendations and/or Australian Standards.

Stage 2:

- Plant and equipment is guarded in line with manufacturer recommendations and/or Australian Standards.

Tangible outputs:

Borg Manufacturing Pty Ltd will receive confirmation that the machine safety system at all manufacturing sites in New South Wales meets or exceeds the standard, significantly reducing the risk of a worker sustaining a traumatic injury due to poorly guarded machinery and inadequate safety system or insufficient training.

Work health and safety outcome:

Borg Manufacturing Pty Ltd will have confirmed that its machine safety system at all manufacturing sites in New South Wales meets or exceeds the standard, significantly reducing the risk of a worker sustaining a traumatic injury due to poorly guarded machinery, an inadequate safety system or insufficient training.

REPLACED WITH:

2d.1 'Machine Safety Program'

Stage 1:

- Plant and equipment is guarded in line with manufacturer recommendations and/or Australian Standards (or are otherwise approved by SafeWork NSW).

Stage 2:

- Plant and equipment is guarded in line with manufacturer recommendations and/or Australian Standards (or are otherwise approved by SafeWork NSW).

Tangible outputs:

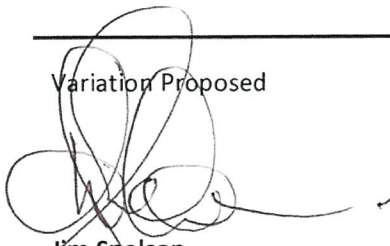

Borg Manufacturing Pty Ltd will receive confirmation that the machine safety system at all manufacturing sites in New South Wales meets or exceeds the standard (or are otherwise approved by SafeWork NSW), significantly reducing the risk of a worker sustaining a traumatic injury due to poorly guarded machinery and inadequate safety system or insufficient training.

Work health and safety outcome:

Borg Manufacturing Pty Ltd will have confirmed that its machine safety system at all manufacturing sites in New South Wales meets or exceeds the standard (or are otherwise approved by SafeWork NSW), significantly reducing the risk of a worker sustaining a traumatic injury due to poorly guarded machinery, an inadequate safety system or insufficient training.

Variation Proposed

Jim Snelson
CEO
Borg Manufacturing Pty Ltd

Date: 21 December 2018,

Variation Accepted

Rick Bultitude
Director
SafeWork NSW

Date: 21/12/18
